

## **A BALANCED LUNCH**

**A series of short workshops on mental, physical and mental wellbeing for the workplace**

## **A BALANCED LUNCH**

A balanced lunch is a series of high-impact short workshops that can be conducted over lunchtime to support the mental, physical and emotional wellbeing of your managers and employees.

Our series offers short workshops that can be conducted monthly, so participants receive regular support and notice a sustainable shift in their mindset. The workshops focus on Mental Well-being, Physical Well-being and Communication. You could choose the full series to meet all the wellness-related needs of your company, or a single workshop targeting a specific goal, depending on your company's objectives.

Each workshop is 60 minutes long and can be conducted at the convenience of your premises. Through interactive discussions and activities, our facilitators will provide the key ingredients on mindset, health and communication so that your team is equipped to deal with the challenges of today's workplace whilst maintaining top health and peak performance. This of course means happier and engaged employees and higher productivity!
